2024.1 MAGNETS

30 Mil Magnets: (Rectangular or Square Cut Only)

Magnets are nice because you can put them on a metal surface (ex. Car) and take them off when you do not want them on. But, Because they go on & off they can come off on their own and get lost! **We Do Not Take Any Responsibility If You Lose Any Magnets.** You will have to Re-Purchase any lost magnets you want.

*Prices Could Be More Depending on Complexity of Artwork.
